Connecting Youth to Opportunities

Indian Minority Economic Development Agency

भारतीय अल्पसंख्यक आर्थिक विकास अभिकरण

INTRODUCTION

Indian Minorities Economic Development Agency, a section 25 not for profit company, registered in 2015 in New Delhi, is working on the vision of connecting youth to opportunities by partnering with the Government and the industry and multiplying the community level processes through building leadership, empowering civil society groups and creating networks. IMEDA aims to facilitate youths access business and entrepreneurship opportunities, education, jobs and skills development and livelihood security programs by facilitating linkages across the public and private organizations and creating synergies for economic opportunities for the youth and empowerment of economically weaker sections among minorities in India.

OUR VISION

IMEDA envisions to empower the community by connecting youth to schemes, businesses, and market opportunities so as to integrate and enable them to play a vibrant role in the social and economic development of the nation.

OUR MISSION

Organizing and facilitating minority community youth to avail opportunities in terms of skills, training, entrepreneurship, education, jobs, employment and self-employment, business startups and businesses scaling, Governmental programs and schemes by leveraging upon the potential and powers of the information, markets, institutions, technologies, and partnerships.

OBJECTIVES

IMEDA works towards increasing the information and awareness and enhancing the skills and opportunities for the minority community youths by organizing them under various verticals using social media and ICT platforms to facilitate them access economic opportunities. IMEDA envisions implementing the following broad objectives towards fulfilling its vision:

- ① To sensitize the community specially youths on educational and employment issues and opportunities.
- ① To act as the think tank, databank, and centre of information dissemination, education, and awareness of the government schemes, programs, and opportunities to enable and empower youth.
- ① To act as the catalyst in the economic development of minority community by linking them with the trade, industry, technologies and the markets.
- ① To work closely with the corporate sector, banks and institutions for initiating, implementing and completing the CSR programs on skills, entrepreneurship development, and livelihood projects.

OBJECTIVES

- ③ To organize training, entrepreneurship and project facilitation workshops for youth and Train the Trainer programs for partner institutions and IMEDA district and down level Associates.
- ③ To help the small-scale business ventures through professional training by the industry and linking them with the technology and financial institutions and markets.
- ③ To help to form NGOs for taking up developmental projects at district and state levels under various Government and private sector schemes, and national and international funding bodies.

THE WAY FORWARD

- ❑ Setup Imeda coordinator centres at district, block and tehsel levels so that rural (needy) people can get the maximum benefits of the government, schemes, and programs.
- ❑ Mobilizing and building awareness on minority's rights, welfare programs, skill development programs, employment and other schemes.
- ❑ Mapping local business potential, conduct startup workshops in 26 districts of Uttar Pradesh to create awareness on starting new ventures, as well as credit/loan facilities and Subsidies.
- ❑ Encourage local artisans, handicraft and household industries among minorities and weaker sections of the society, facilitate training & development programs, and support them in marketing of finished goods using various digital platforms.

STATUS OF MUSLIMS

EDUCATION

Muslims have lower participation in Higher Education !

CAMPUS SURVEY

Community-wise shares of the overall population and college/university students' population, respectively:

STATUS OF MUSLIMS

EDUCATION

- ④ 42.7% of Muslims in India are illiterate.
- ④ Muslims are the only community to have an illiteracy rate higher than the national rate among all communities.
- ④ The national overall literacy rate for Muslims is 59.1% against national literacy rate of 64.8%.
- ④ Males literacy rate is 67.6% against the national male literacy rate of over 80%.
- ④ Female literacy rate is 50.1%, against the Indian women national literacy rate of 65.46%.

MUZAFFARNAGAR

- ④ In case of below primary education, Muslim literates are higher 24.29 % than other communities.
- ④ However the trend of above primary education is the least among Muslims i.e. 13.83%.
- ④ Only 2.66 per cent and 0.41 per cent have passed high school and intermediate, respectively.

MAJOR REASONS FOR LOWER LITERACY RATE

- ⊙ Muslims do not enthusiastically provide education to their children especially their daughters.
- ⊙ They do not have positive attitude towards modern commercial education.
- ⊙ Limited access to quality education.
- ⊙ Poor Facilities and lack of infrastructure.

REMEDIAL MEASURES

To improve the Muslim's education status IMEDA is committed to sensitize people on the importance of education, central and state government scholarships, various coaching & training opportunities. And also extending its support through coordinator centres to disseminate information and support in application processing.
